

Winston Racing Nation, Spring 2001

It looks like the hood of a race car, but it's a tin filled with regular (red) or light (gold) Winston cigarettes. Copy on the rear announces that Winston is the "official smoke of race fans." The back copy reads "we are united by freedom and a passion for racing," The front has "headlights" and when the cover is lifted, a picture of an engine completes the feeling of opening the hood. (Spring, 2001.)
